

**P R E L I M I N A R Y   S P E C I F I C A T I O N S**

- Working height from 17 m to 34 m
- Hydraulic extension deck
- NIVOLUX outrigger system
- Slope sensor
- Scissor Arm Guards (within chassis frame)
- Removable control box
- Fold-down railings
- Hydraulic brakes
- Proportional drive control
- Motor diagnosis system

The LIFTLUX Triple scissor arm design provides the elevated platform with a unique stiffness & lateral rigidity. The machine provides more comfort for the user, and an increased work load capacity.

Most units have a big single hydraulic extension deck to increase work space (up to 7.2 m), providing more outreach than some twin decks (up to 2.85 m).

LIFTLUX machines are delivered with standard 4 wheel drive, differential lock and wide foam filled tyres for improved rough terrain capability.

The NIVOLUX outrigger device allows a +/- 0.1° automatic self-leveling of the unit on slopes and uneven ground, reducing the time taken to position the machine.
